PROFILE INFO

As a web developer with over 2 years of experience, I specialize in building industrial-grade applications that exceed expectations. My expertise in the MERN stack, and Next.js enables me to create dynamic, user-friendly interfaces that deliver seamless user experiences. Whether it's optimizing code or troubleshooting issues, I'm committed to delivering top-quality solutions that meet the needs of clients and users alike. With a keen eye for detail and a passion for innovation, I'm driven to help businesses achieve their goals through cutting-edge web development.

WORK EXPERIENCE

Full Stack Web Developer FIVERR

2021 - Present

Experienced level 1 Fiverr seller with 5-star ratings from 15+ clients worldwide. Expert in web development, building simple to complex apps that exceed expectations. Known for professionalism, reliability, and attention to detail, with a strong reputation as a top-tier web developer on Fiverr.

MERN STACK DEVELOPER AI TECHNOLOGIES | Andhra Pradesh

2022 - 2023

I worked for a software company based in India, where we developed a mobile application for the client LocalHappinez using Node.js and React Native. As a lead developer, I was responsible for building the admin panel using the MERN stack and also developing the backend APIs. During this project, I gained hands-on experience working with AWS SNS and Simple Email Services, integrating email and SMS services into the application. Additionally, I had the opportunity to work with an agile development team, where I further honed my skills in agile methodology. With my strong problem-solving skills and attention to detail, I was able to deliver high-quality code that met the client's expectations. Overall, my experience at the software company allowed me to develop expertise in a range of technologies and methodologies, positioning me as a highly skilled and adaptable developer.
